

Pragma Group Virtual Client Appreciation Event

9 June 2022 @ 09:00

The world is disrupted ...

This creates an opportunity for an innovative response.

Please join us as we rethink, reimagine, and reinvent our asset management approach to benefit our businesses.

We look forward to spending some time with you as we tap into the knowledge and practical solutions our speakers have to offer.

Team Pragma, On Key and Martec

“What if we don't change at all ... and something magical just happens.”

 Date | 9 June at 09:00

Meet our presenters

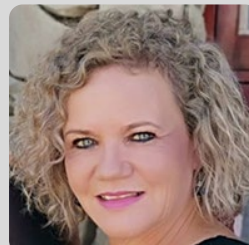

Pieter Geldenhuys
Futurist & Director at
Institute for Technology
and Strategy

Tour guide to the Future | Harnessing new opportunities in the ever-changing business environment made possible by leveraging new technology, social and business trends..

Adriaan Scheeres
CEO and Co-founder
of Pragma

A dreamer, an innovator and an entrepreneur, devoted to challenging the status quo and bringing change and improvement.

Ria Furriel
Partner of Community
Insurance at King Price |
On Key Case Study

Ria uses a combination of technology and hands-on personal service to change the face of community scheme living insurance. An automated claims management system is one of the jewels in the crown of King Price's community offering which she helped establish.

Wyhan Jooste
Head | Asset Care Research
Group, University of
Stellenbosch

Meticulous researcher and collator of knowledge, passionate about training new engineering recruits and preparing them to question ... everything ... and find relevant solutions.

Our existing thinking is good for recognising past and standard situations, not good for designing new possibilities – the limits of our thinking is the biggest problem.

Unknown.
